Education

Computer Engineering
Darshan University
07/2019 – 06/2023 | Rajkot

Professional Experience

Tops technologies
Trainee Frontend Developer(ReactJS)
04/2025 – 10/2025 | Rajkot
Completed a hands-on React JS training program at Tops Technologies, where I worked on real-world projects using JavaScript, React, and Tailwind CSS. Gained practical experience in component-based development, API integration, and building responsive UIs.Also worked with React Router for navigation, Redux for state management, and JSON Server for creating mock backend APIs.

Posimyth Innovation
Junior Software Developer
09/2023 – 05/2024 | Ahemdabad
Job Description: Developed and maintained product-based applications using modern web technologies. Created widgets in JavaScript and utilized React for designing user interfaces and components. Collaborated with cross-functional teams including designers, products managers, and senior developers to deliver high-quality software solutions

Projects

Cart Management Sysrtem ⬈
Built a responsive shopping platform using React.js, JavaScript, and Tailwind CSS with features like product listing, search, add-to-cart, checkout, and order success flow. Implemented dynamic state management using React hooks for smooth user interaction.

Weather-App ⬈
Developed a Weather App using React.js, useState, and Tailwind CSS that fetches real-time weather data from an external API. Focused on creating a clean, responsive UI and efficiently handling dynamic data updates for a smooth user experience.
